## Summary

As a web developer intern at Prodigy InfoTech, I apply my web infrastructure expertise and scrum master certification to create and maintain high-quality websites and web applications. I work with a team of talented and diverse developers, designers, and testers, and contribute to the agile development process and the continuous improvement of the products. I have also completed a job simulation with JPMorgan Chase & Co., where I demonstrated my excel skills and communication abilities. I am pursuing my bachelor of engineering degree in computer science engineering from Priyadarshini Engineering College, affiliated to Anna University Chennai, and I expect to graduate in July 2026. I am passionate about learning new technologies and enhancing my web development skills, and I aspire to become a full-stack developer in the future.
